**DETAILED ACTION**

***Response to Amendment***

1. The amendment filed on 30 July 2008 has been accepted and entered. Claim 1 has been cancelled.

***Response to Arguments***

2. Applicant's arguments, see amendment filed 30 July 2008, with respect to the rejection of claims 1-5, and 7-16 have been fully considered and are persuasive. The rejection of these claims has been withdrawn.

***Allowable Subject Matter***

3. Claims 2-24 are allowed.
4. The following is an examiner's statement of reasons for allowance:

With respect to claims 6, 10, and 17, the prior art fails to disclose or suggest an array of sensor elements formed on a substrate and extending along one side of the substrate to three edges of the substrate. The closest prior art of record, Kyyhkynen (6,403,964) teaches a substrate with sensor elements extending to two edges and nearly to a third edge. However, Kyyhkynen teaches space for including screws or fasteners (110) along the edge opposite from the end including the readout electronics (See Figs. 5A-5C) (Claims 17-20 were indicated as allowed in the communication mailed on 30 April 2008).

With respect to claim 15, this claim is allowable for reasons as set forth by the applicant in the communication filed 30 July 2008, with specific respect to the fact that in the device of Jeromin (5,381,014), only one sensor is connected to each readout line at

time, therefore there is nothing to multiplex, hence it would not have been obvious to use a multiplexer in the claimed position, let alone using an analog multiplexer.

With respect to claim 24, the prior art of record does not disclose arranging an array of sensor elements formed on one face of a substrate, and an integrated electronic module comprising an analog-to-digital converter, wherein the module is mounted on the same face of the substrate as the sensor elements and the logic for addressing sensor elements is integrated into the array of sensor elements *such that no edge of the substrate is used to accommodate an addressing circuit* (emphasis added).

Claims 2-5, 7-9, 11-15, and 17-23 are allowable for reasons of dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
